

What is [NCOA LinkTM](#) (National Change of Address)?

Every year approximately forty million Americans estimate that at least 8% of their mail is undeliverable.

There is a solution. The **NCOA LinkTM** system makes available **NCOA**

Why Mail is Undeliverable

The United States Postal Service has identified the following reasons for undeliverable mail:

The first line of the address:

-
- Addressee unknown to carrier.
- Addressee temporarily away.
- Addressee's name misspelled.
- Addressee's Street Address Errors.
- Missing address line or street name.
- No such or incorrect street.
- No such or incorrect number.
- Missing house number/ P.O. Box.
- No such or incorrect apartment, suite, etc.
- Missing or incorrect street directional or suffix

- No such rural route number/rural route box.
- Rural route address change to city-type address.

□ **The last line of the address:**

-
- Incorrect or missing ZIP Code.
- Incorrect or missing city and/or state.

□ **Other reasons for un-deliverability:**

-
- Change of address on file.
- Forward order expired.
- Moved, left no address/box closed, left no order.
- Address vacant.
- No label/illegible label.
- No mail receptacle.

NCOA^{Link™} Footnotes

NCOA^{Link™} Footnotes allow Anchor to assist the mailer in deciding on a set of business rules that would only drop records for those who moved without providing a new address. Records that are potential un-deliverables (but were not considered a **NCOA^{Link™}** match) are flagged as Footnotes. The mailer then can decide whether or not to mail to these addresses. However the quantity of “Footnotes” you will receive under **NCOA^{Link™}** may be very much reduced as compared to previous NCOA processing.

The Benefits of NCOA^{Link™} and Footnotes

NCOA^{Link™} provides mailers with the capability to receive a current address before mailings. **NCOA^{Link™}** provides additional benefits including Address Standardization and ZIP + 4® appending, ZIP™ Correction, Carrier Route Coding, and a CASS™ Report and DPV™.

NCOA^{Link™} footnotes indicate a match was close but not good enough to meet the strict USPS® matching guidelines. The footnotes indicate the reason a match could not be made with the

NCOA

[Link](#)

file, and a mailer can investigate the address record and provide necessary corrections. A no-match to the

NCOA

[Link](#)

file does NOT return the new address - the Return codes when provided may give an indication why.

NCOA^{Link™} Footnotes and \$\$\$ Advantages

The following example will demonstrate the effect of **NCOA**^{Link™} Footnotes processing of a 1 million mailing. If,

-
- **NCOA**^{Link™} Footnotes match rate of .15% equals 1,500 mail not posted.
- At \$400/M (estimate to mail), the savings equal \$600.00.
- If the 1,500 **NCOA**^{Link™} Footnotes names are replaced with 1,500 deliverable names and a 2% response rate results this equals 30 additional orders.
- If the average order is \$50, Additional Sales = \$1,500.

Processing a one million mailing with Footnotes included in the **NCOA**^{Link™} processing can result in additional savings and sales of \$2,100 plus the potential ongoing revenue stream from these new customers.
